

Great hair cuts and styles are only a blade away with the revolutionary gold award winning FB1™ glass hair cutter. If you've been looking for the perfect hair cutting solution, whether for your salon business, to use at home, or for your hair academy then you need look no further. Frank Bisson's patented Glass hair Cutter is one of the hair industry's best kept secrets which is now available to you. As an award winning hair styling solution, it not only creates the perfect celebrity hair styles but also eliminates split ends, increases your creativity and adds volume, multi-texture and hold. Now, with thousands of customers all around the world depending on the FB1, we can assure you that you'd be in great company when you start using the FB1 glass hair cutter. * FB1 Glass Hair Cut Ergonomically designed to be easy to use and you don't need to be a trained hair stylist * The comb is curved to follow the contours of the head * The teeth of the comb have been designed to comb, style and detangle all hair types without damage * The tail is perfectly designed for parting and sectioning hair * 3 Products in 1 No other cutting or combing tools required * Stylish Chrome features Innovation, reliability, quality, and fashion come together in the FB1 glass hair cutter. The FB1's simplicity of use and affordability does make a difference. What is the FB1 Glass hair cutter? The revolutionary award winning Frank Bisson FB1 Glass Hair Cutter The revolutionary glass blade is probably the sharpest cutting device ever invented but the way the edge is serrated means it is safe to use. The serrated edge also provides more grip to the hair whilst cutting and because of its multi-faceted cutting edge, and the material it is made from, it gives more lift, volume and texture. The FB1 is an extremely durable glass hair cutter that is stylishly designed with a chromed blade capsule which is virtually indestructible, chemical and heat resistant. Gold Award Winning Innovation The FB1 gold award winning Glass Hair Cutter won first prize and the Gold Medal at the International Inventions Show sponsored by the BBC. [Hair care](#)
